- Inform you of the assessed value of your property for tax year 2022-23, and tell you how to challenge it if you believe there is a mistake.

**ESTIMATED 2022-23 PROPERTY TAX**

We cannot calculate your 2022-23 property tax until the new tax rate is established by the city council. Until then, you will pay the 2021-22 rate. The table below estimates the amount you will owe by multiplying the taxable value of your property by the current tax rate of 10.755%. This table is provided for informational purposes only; the actual amount you owe may differ.

Please note that property tax abatements, including the co-op/condo abatement, are not included in this estimate. If you receive any abatements, they will be subtracted from your property taxes. Check your July tax bill for the value of any abatements you receive.

## ABOUT YOUR PROPERTY TAXES

Property taxes are determined using a complex formula that takes into account many different amounts and calculations. Visit [www.nyc.gov/nopv](http://www.nyc.gov/nopv) for more information about property valuation and taxation.

Your property belongs to one of four broad tax classes and a specific building class.

Your property's tax class helps determine how the Department of Finance calculates what you must pay in property taxes.

The Department of Finance estimates that as of January 5, 2022, the market value for this property is \$13,712,000.

The Department of Finance estimates your property's market value using the income approach.

Market value is found by dividing the net operating income by the overall capitalization rate.

Each year, the Department of Finance values approximately 1.1 million properties with a total combined value of \$1.3 trillion. Much of the data we collect during the assessment process is available online. For more information about how properties are assessed and valued in New York City, visit [www.nyc.gov/nopv](http://www.nyc.gov/nopv).

If you own income-producing property, you must file a Real Property Income and Expense (RPIE) statement or a claim of exclusion unless you are exempt by law. You must also file information about any ground or second floor commercial units on the premises, even if you are exempt from filing an RPIE statement. The deadline to file is June 1, 2022. Failure to file will result in penalties and interest, which will become a lien on your property if they go unpaid. Visit [www.nyc.gov/rpie](http://www.nyc.gov/rpie) for more information.

RPIE filers with a tentative actual assessed value of \$750,000 or greater will be required to file an addendum containing rent roll information for the tax year during which filing of the income and expense statement is required.

### **Structural Change to Your Property**

As of January 5, 2022, our records show that there has been a structural change to your property due to:

Demolition                       New Construction                      Alteration

The Department of Finance included an increase of \$5,492,000 for this structural change when we estimated your market value.

## WHAT TO DO IF YOU DISAGREE WITH THESE VALUES

Challenge Your Market Value with the Department of Finance	Challenge Your Assessed Value with the New York City Tax Commission
